Phase 6: User Interface Development

Objective:

Create engaging user experiences with Salesforce UI technologies.

Key Topics:

- **Visualforce Pages:** (legacy)

    - Example: A custom PDF invoice page.

- **Aura Components:**

    - Two-way data binding, reusable components.

- **Lightning Web Components (LWC):**

    - *Example:* A lead dashboard showing pipeline in real-time.

- **Events in LWC:**

    - Parent-Child communication.

- **SLDS (Salesforce Lightning Design System):**

    - Consistent styling with Salesforce standards.

- **Integration with Apex:**

    - Fetch data dynamically (e.g., show top 5 accounts).

Deliverables:

✓ Visualforce Invoice page
✓ Aura Component for quick action buttons
✓ Lightning Web Component: Interactive dashboard
✓ Documentation with UI mockups
